

GHT-906

GREAT HEART SEED

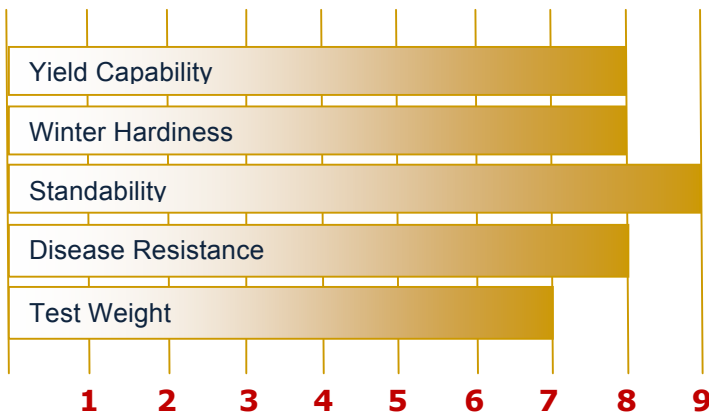

KEY STRENGTHS

- Very early harvest date
- Head scab resistance reduces initial infection AND slows any spread of infection
- Very complete disease package
- Excellent on stripe rust
- Excellent on lodging
- Smooth head
- And still has yield

MANAGEMENT TIPS

- Widely adapted to various soil types
- Plant at high-to-medium populations
- The best pick for managing head scab and many other diseases
- Great variety for double-crop situations

Seeding Method	Seeds / Acre	Approx. lbs. /acre
Conventional	1,800,000	135
No-Till	1,900,000	143
Broadcast	2,000,000	150

GHT-906 Strong on defense but has yield too with large, showy heads. Type I & II Head Scab resistance! It also will be one of the earliest varieties cut. Take the smooth headed straw off early, and go right in with double crop beans. The solid disease package allows it to go anywhere.

RATING SCALE:
 1-2 / Poor
 3-4 / Fair
 5-6 / Good
 7-8 / Very Good
 9 / Excellent

M – Medium
 MT – Medium Tall
 MS – Medium Short
 S – Short
 T – Tall
