

Early-Mid Group III

GT-3432XF has quick emergence and a wider profile which helps it canopy completely to shade weeds and conserve moisture. The standability remains strong under that weight to ensure an easier harvest. The agronomic package includes phytophthora and cyst resistance with good protection against stem canker. It also has tolerance to Metribuzin.

KEY STRENGTHS

Wide branching canopy
Good height even under stress
Phytophthora resistance and strong emergence
Roundup Ready 2 XtendFlex™ with Metribuzin tolerance

MANAGEMENT TIPS

The plant type can handle rougher environments and stay upright Phytophthora resistance will allow wetter soils Good choice for Brown Stem Rot farms Roundup®, dicamba and Liberty® herbicide options
