

Mid-Late Group III

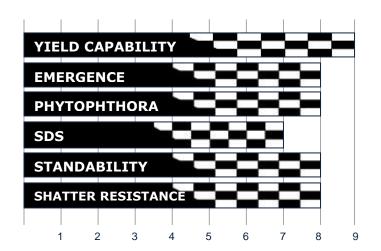

GT-3711XS is a great choice for high yield with extra durability if needed. Its strong standability will support it if growing conditions are better than expected, yet the fast canopy and plant size maintain yields in tough years. A unique set of consistent genetics that you can build your program around.

KEY STRENGTHS

Record setting yield capability Variety has good toughness under stress Diversified genetics for risk management Strong vigor for a great start

MANAGEMENT TIPS

Can be used for high yields or stress conditions The big, quick-growing plant canopies quickly Strong set of agronomics support its versatility Excluder for salt
