

GREAT HEART SEED

GT-375CLL

Mid-Late Group III

CHARACTERISTICS

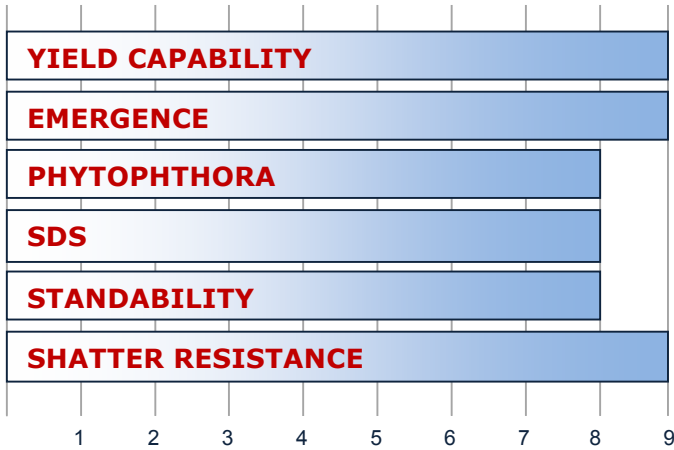

GT-375CLL. The most remarkable thing about the variety is its very high yield potential. In good years or tough that yield remains consistently high. It also offers a complete disease package with strong emergence and standability.

KEY STRENGTHS

- Impressive yields year-to-year
- Very complete disease package
- Fast emergence
- Moderate plant size and great standability

MANAGEMENT TIPS

- Good choice for fields with suspected glyphosate resistant weeds
- Its characteristics allow for bottom ground planting
- Doesn't need "babied" to get high yields, but has punch
