

GREAT HEART SEED

105 DAY

KEY STRENGTHS

- Superior yield
- Very good drought tolerance
- Comprehensive disease package
- Good drydown
- Versatile across soils

MANAGEMENT TIPS

- Responds well if pushed
- Tolerates many disease pressures
- Handles drought
- Monitor stalk condition at harvest

VALUE ADDED TRAIT OPTIONS

TRE

HT-6583 A lot of yield here in a lot of different places. Can tolerate drought conditions deep into the Midwest. Good pick for greensnap-prone areas. The disease package gives you confidence although it will respond well to fungicide use as well as other high management procedures.
