

GREAT HEART SEED

HT-7425

114 DAY

GENETIC GROUP - U

KEY STRENGTHS

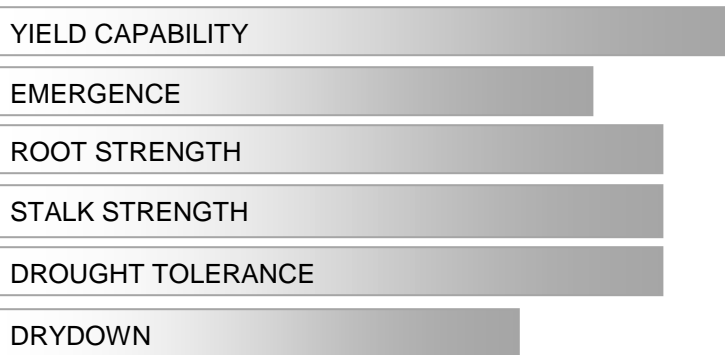

- Excellent yield potential
- Very good drought tolerance
- Genetically diverse
- Can be used for grain or silage
- Good overall disease package

MANAGEMENT TIPS

- Can use it for high yields and stress tolerance both
- Excellent hybrid to maximize yields and spreads genetics
- Strong standability throughout the season
- Keep populations moderate and above
- Consider a fungicide in high rust environments

HERBICIDE TOLERANCE

- GROWTH REGULATORS ●
- PIGMENT INHIBITORS ●
- SULFONYLUREA'S ●

HT-7425 Here is a hybrid that has huge top-end yield potential and yet the stress tolerance to still make good yields when conditions are tough; a true racehorse/workhorse hybrid. Unique genetics allow it to match up well with many of our other hybrids. It has the bushels and standability to be your best grain hybrid, and also the plant size to make great silage tonnage.
