

# GREAT HEART SEED

## HT-7500

115 DAY

### KEY STRENGTHS

Dependable with top end  
 Very good disease ratings  
 Maintains yield advantage in high and low productivity fields  
 Very strong standability

### MANAGEMENT TIPS

Better than others across soil variation  
 Disease tolerance and agronomics make it versatile  
 Can stay in the field longer than others  
 Has drought tolerance but don't miss out on the high yields

### HERBICIDE TOLERANCE

- GROWTH REGULATORS ●
- PIGMENT INHIBITORS ●
- SULFONYLUREA'S ●

**HT-7500** As of this writing this hybrid is considered our highest performing product. It is a fuller season line but does dry and has the stalks, roots and harvest intactness to allow for that. It isn't picky about planting population or intensive management but rewards you when soils allow it to be pushed. Consistently wins when compared to other hybrids.

### CHARACTERISTICS

| Category                           | General Characteristics   |           |
|------------------------------------|---------------------------|-----------|
| Planting Management                | Planting Rate             | M         |
|                                    | Emergence                 | 8         |
|                                    | No-Till Adaption          | 8         |
|                                    | Corn / Corn Adaption      | 5         |
| Plant Growth & Development Ratings | Ear Type                  | Semi-Flex |
|                                    | Root Strength             | 8         |
|                                    | Stalk Strength            | 8         |
|                                    | Green Snap                | 6         |
|                                    | Drought Tolerance         | 7         |
