

# GREAT HEART SEED

# HT-7676

116 DAY

GENETIC GROUP - U

## KEY STRENGTHS

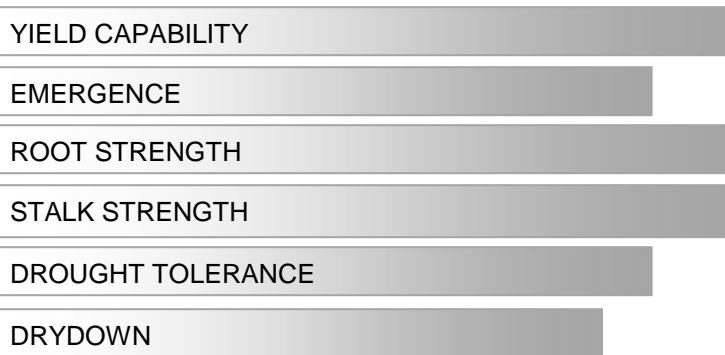

- Record-setting yield potential
- Excellent performance across soil types
- Good ability to perform at various populations
- Impressive standability
- Good toughness under stress

## MANAGEMENT TIPS

- Great pick to maximize yield while maintaining stability
- Good hybrid for corn-on-corn applications
- Possible food grade hybrid
- Has the standability for high pops and ear flex for lower
- Solid disease package

## HERBICIDE TOLERANCE

- GROWTH REGULATORS ●
- PIGMENT INHIBITORS ●
- SULFONYLUREA'S ●

**HT-7676** So much top end yield potential without losing the stress tolerance needed for stability. Push the population and fertility, and it will respond well with yields to brag about. Use it as a defensive hybrid with lower populations on stress prone soils and let it carry you through the tough times. With its complete agronomics it is a great choice following corn and still bringing in impressive yields of heavy test weight grain.

## CHARACTERISTICS

Category	General Characteristics	
Planting Management	Planting Rate	MH
	Emergence	8
	No-Till Adaption	8
	Corn / Corn Adaption	9
Plant Growth & Development Ratings	Ear Type	Semi-Flex
	Root Strength	9
	Stalk Strength	9
	Green Snap	7
	Drought Tolerance	8
	Plant Height	MT
	Ear Placement	MH
Disease Resistance Ratings	NCLB	9
	SCLB	8
	Grey Leaf Spot	7
	Diplodia	7
	Rust	7
	Anthracoese Leaf Blight	7
	Anthracoese Stalk Rot	8
	Goss's Wilt	7
Harvest Ratings	Staygreen	9
	Harvest Appearance	8
	Drydown	7
	Grain Quality	9
	Test Weight	9
