

GREAT HEART SEED

Ultimate

Alfalfa

Ultimate Alfalfa is designed to give high productivity over many years. Its initial spring growth followed by rapid re-growth of highly digestible forage has propelled it to the top of the trials. The agronomic package of very strong disease and insect resistance has protected the consistency of that high yield. Its impressive winter hardiness adds to the persistence of this line.

KEY STRENGTHS

- Very high forage yields
- Improved insect resistance
- Complete disease package for consistency
- Quality forage

MANAGEMENT TIPS

Great selection for high tonnage of dairy-quality production or hay sales. It responds well to fertility in yield and extended stand life. It works well as cut hay, haylage or grazed pasture.

CHARACTERISTICS

Category	General Characteristics	
Maturity & Herbicide Tolerance	Fall Dormancy	4
	Herbicide Tolerance	None

Plant Description 	General Characteristics	
	Forage Quality	8
	Early Spring Growth	8
	Re-growth After Cutting	9
	Compaction/Traffic Rating	7
Life Expectancy	6 year	

Disease Ratings 	General Characteristics	
	Bacterial Wilt	HR
	Verticillium Wilt	HR
	Fusarium Wilt	HR
	Anthraxnose	HR
	Phytophthora Root Rot	HR
	Race 1 Aphanomyces	HR
	Race 2 Aphanomyces	R
	Stem Nematode	R
	Northern & Southern Root Knot Nematode	HR

Insect Ratings	General Characteristics	
	Pea Aphids	R
Blue Aphids	R	

Rating Scale:
 1-2 / Poor
 3-4 / Fair
 5-6 / Good
 7-8 / Very Good
 9 / Excellent

Rating Scale:
 HR / High Resistance
 R / Resistant
 MR / Moderate Resistance
 T / Tolerant
 S / Susceptible
