

# GHT-946

## GREAT HEART SEED

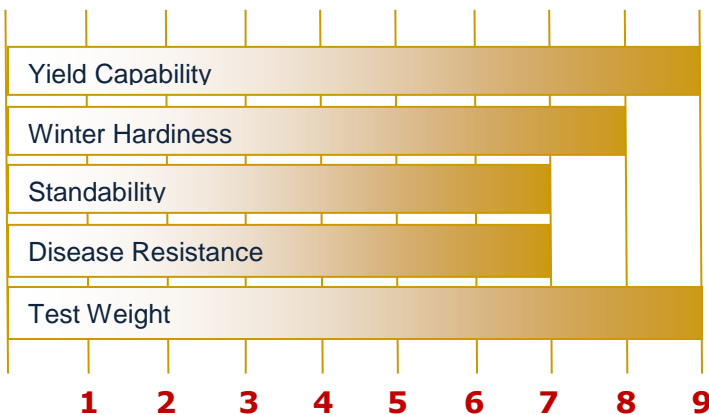

### KEY STRENGTHS

- Yield leader!
- Very heavy test weights
- Head scab resistance reduces spread of infection
- Very good straw production
- Great disease package

### MANAGEMENT TIPS

- Well suited from the Midwest to the Mid-South and back East
- Plenty rugged under tough conditions
- Record breaking yields in better conditions
- Great selection for managing head scab and getting top test weights

Seeding Method	Seeds / Acre	Approx. lbs. /acre
Conventional	1,600,000	<b>120</b>
No-Till	1,750,000	<b>130</b>
Broadcast	1,900,000	<b>140</b>

**GHT-946** A heavy test weight variety with durability and top-end yield potential. If you add the inputs it responds with big yields but if you need a durable workhorse that doesn't miss GHT-946 is your variety. It protects those great test weights with scab resistance along with a very complete disease package. To top everything off, it also makes a lot of straw bales.

RATING SCALE:  
 1-2 / Poor  
 3-4 / Fair  
 5-6 / Good  
 7-8 / Very Good  
 9 / Excellent

M – Medium  
 MT – Medium Tall  
 MS – Medium Short  
 S – Short  
 T – Tall
