

GHT-9530

GREAT HEART SEED

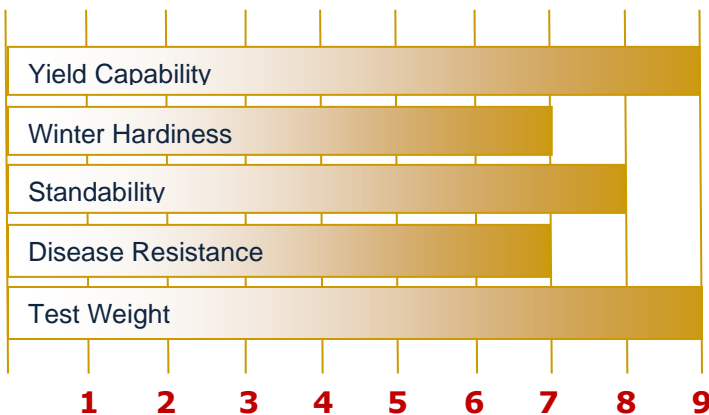

KEY STRENGTHS

- A variety that can be pushed to new yield records
- Incredible test weights
- Head scab resistance reduces spread of infection
- Very good straw production
- Solid disease package
- Good maturity for double crop

MANAGEMENT TIPS

- Well suited to the Midwest, Mid-South, and DalMarVa
- Plenty rugged under tough conditions
- Record breaking yields in better conditions, or with higher management
- Great selection for managing head scab and getting top test weights

Seeding Method	Seeds / Acre	Approx. lbs. /acre
Conventional	1,600,000	120
No-Till	1,750,000	130
Broadcast	1,900,000	140

GHT-9530 A game-changing variety for yield, test weight and durability. This line has tremendous ability to respond under high management with the highest yields yet on your farm. It is also the rugged workhorse in tougher situations. Its test weight is among the heaviest we have seen (and test weight is where we have always excelled). The combination of plant size and standability adds to its versatility.

RATING SCALE:
 1-2 / Poor
 3-4 / Fair
 5-6 / Good
 7-8 / Very Good
 9 / Excellent

M – Medium
 MT – Medium Tall
 MS – Medium Short
 S – Short
 T – Tall
